Riskora

Cloud-Based File Security and Risk Assessment Platform

Assessment ID: 1

Prepared for: YARA

Date: 2026-10-28 13:40:49

Risk Score: 10 (Low)

Field	Value
Original file name	HCIA-Cloud Computing V5.5 Course (1).png
Stored file name	HCIA-Cloud_Computing_V5.5_Course__1_.png
File type	image
Size (bytes)	2158447
SHA-256	bfa4539beb79a8ca5040d2ceeb54c8ea9f9bd1888b6e806e67d478bce36b07fe
Status	completed
Cloud upload	review_required

Findings

No direct sensitive content detected in the scanned payload (LOW)

Description: The local assessment did not find obvious sensitive patterns in the file content.

Evidence: Static file review and content pattern checks completed.

Mitigation: Continue to review the business context and storage policy before upload.

Assessment limitations: This project-defined score is intended for educational and risk-awareness use and does not guarantee a real malware determination.
